

Dear Parents and Graduating Seniors:

Congratulations on your outstanding accomplishments as a class! We are tremendously proud of you and the way that you've handled yourselves over the past few trying months. Initially, when we planned a virtual graduation, we were told that we were not permitted to have a live graduation. Recently, the governor has expanded the gatherings in some counties to 250 people. Therefore, we have a brief ceremony planned at the drive-in at 8:15 pm before the virtual ceremony. We will call each student with caps and gowns on in the front of the theatre for a presentation of a certificate and photo opportunities. We have a DJ on hand to play music while the students celebrate by tossing their caps. Hand Sanitizer will be on site. The concessions at the drive-in will be open as well to make it a true experience! We are also going to debut the graduation on Facebook Live through the School District's Official Facebook Live page at the same time as it premieres at the drive-in. Thank you for your partnership in education.

Sincerely,

POASD Administration and School Board
